Your Guide to Installing and Getting Started with PocketSteam PPC

Version 1.0

Advanced Steam Property Calculator

For Microsoft® Windows® Pocket PC

Welcome to PocketSteam PPC, Version 1.0 from
Techware Engineering Applications, Inc.

PocketSteam PPC, Version 1.0 is an interactive steam property calculator for the Pocket PC. It uses the IAPWS IF-97 steam formulations to calculate steam properties.

System Requirements

The minimum system requirements needed to use **PocketSteam PPC,** Version 1.0 include:

- Pocket PC using Microsoft Windows CE 3.0 or later.
- Pocket PC using either MIPS, SH3 or Strong Arm processor.
- Approximately 260 KB of free memory.
- Personal computer running Windows 95/98, NT or 2000.
- Serial or USB cable connection for Pocket PC.
- Microsoft ActiveSync 3.0 or later

Serial and Authorization Numbers

Inside the **PocketSteam PPC** package, you will find a sticker that identifies your serial number and authorization number. You will be asked for these numbers during the installation process. These are your unique numbers. Be sure to store them in a safe and secure place.

If someone else wishes to try **PocketSteam PPC** on his computer, **do not** give him your numbers. You are responsible for keeping these numbers private. We will gladly give anyone a temporary number to try the software. Please have them contact us or visit our website.

Before Installing

If you are running Windows NT or 2000, you must be logged on as an Administrator for a proper installation.

Installation Instructions

Make sure Pocket PC cable is connected to your desktop unit before running the installation program.

1. Insert the **PocketSteam PPC** diskette
2. Click the '*Start'* button
